The background of the entire image is a dark, textured surface with a network of thin, light-colored lines connecting small, glowing white dots, resembling a molecular or digital structure. In the center, a hand is visible, holding a glowing, semi-transparent sphere. This sphere is covered in a grid of small, bright white dots. Surrounding the sphere are several glowing white elliptical orbits, similar to the Bohr model of an atom, with small white dots at their intersections and along their paths. The overall aesthetic is high-tech and futuristic.
